DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 37-39 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith of record for reason of record.

Claim Rejections - 35 USC § 103

Claims 1-7, 11-16, 18-29, 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith of record for reasons of record.

Claims 30-33, 36, 40-56 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith as applied to claims above, and further in view of Dorris of record for reasons of record.

Response to Arguments

Applicant's arguments filed 10/5/07 have been fully considered but they are not persuasive.

Applicants argue that the physical arrangement of the layers is different in the prior art than in the present application, i.e., substrate, coating material and oxidation promoter.

The claims are recited presently do not require the arrangement argue, since the arrangement disclosed in the prior art reads upon the present claims. No where in the claims does it state that the entire surface of the coating layer is covered by the oxidation promoter. Thus a disclosure showing the mixed layer of oxidation promoter and a synthetic layer would read upon the claims.

Applicants further argue that claims 37-39 are not clear why they are being rejected, since the examiner has not made the proper showing.

The claims are apparatus claims, accordingly little or no patentable weight is given the intended use or functional limitations. Columns 9 and 10 contain a discussion of a system, having two zones with a moveable oxidation promoter therebetween, which meets all the structural limitations of the claims.

With regard to the placement of the oxidation promoter, applicants argue that the case law is not applicable. The case law recited in the action is directed to changes in shape and sizes that produce no unexpected results merely by moving around a portion of the structure to produce a different shaped structure.

Applicants have shown no unexpected results that these different arrangements produce. Accordingly, the claims stand rejected.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
